Brief description of Project

The "Paseo del Rio at Rio Hondo and San Gabriel Coastal Basins Spreading Grounds" project is intended as a prototype for multi-objective projects in the region and will provide limited public access, create passive recreational and educational opportunities, and beautify the appearance of the existing spreading grounds along the San Gabriel and Rio Hondo Rivers. The overall project is the result of a collaboration between the City of Pico Rivera and the County of Los Angeles that began in 1999 and is a four-phase undertaking that will promote public awareness, provide recreational opportunities, and protect natural resources. The City of Pico Rivera is requesting $1,830,000 for the Phase IIA improvements of the RHSG. The grant funds will be used for the development of a bike path/walking trail at the RHSG, landscaping, irrigation lines, the development of a rest area, lighting, interpretive signage, and improved public entrances.

For Development Projects
Land Tenure – Project is: 570 acres:

_____ Acres owned in fee simple by Applicant

_____ Acres available under a _____ year lease

X Acres other interest *(explain)* The Los Angeles County Flood Control District holds land tenure and is working collaboratively with the City of Pico Rivera to develop this open space area.

For Acquisition Projects
Project land will be _____ acres

_____ Acres acquired in fee simple by Applicant

_____ Acres in other than fee simple *(explain)*

_____

_____

I certify that the information contained in this Project Application form and Application requirements is accurate.
